

# Eco-Central!

## Lights and Equipment

(√ 1) Lights are turned OFF when not required.

(√ 2) Computer monitors are either turned OFF or computers are put to SLEEP when not in use.

(√ 3) Computer peripherals such as printers, scanners and other electronic equipment are also turned OFF when not in use.

## Heating and Air Conditioning

(√ 4) Windows and curtains are closed at the end of the school day.

(√ 5) Space around vents on walls or window sills is kept free of obstruction.

(√ 6) Doors to the outside of the building are not left open longer than necessary.

(√ 7) Mechanical equipment and water faucets are checked regularly and problems are reported promptly.
